Damit Sie möglichst lange Freude an Ihren hochwertigen EMCO Produkten haben, beachten Sie bitte folgende Pflegehinweise: Reinigen Sie die Module mit einem Tuch oder Lederlappen und klarem, handwarmen Wasser. Bei starken Verschmutzungen können Sie auch ein mildes, hautfreundliches Spülmittel verwenden. **Verwenden Sie keine Reinigungsmittel, die scheuern, Alkohol enthalten oder auf einer Essigsäure aufgebaut sind. Sogenannte Kalkentferner dürfen ebenfalls nicht verwendet werden.** Die **Glasflächen** bitte nur mit einem feuchten Fensterleder reinigen. Die Glaskanten nur trocken abwischen. **Verwenden Sie bitte keine handelsüblichen Glasreinigungsmittel.** Nach der Reinigung ist es wichtig, alle Flächen mit einem weichen, fusselfreien Tuch trocken zu reiben. Bitte heben Sie diese Montage- und Pflegeanleitung gut auf, denn **Schäden, die durch eine unsachgemäße Behandlung entstehen, unterliegen nicht unserer Gewährleistung.**

To ensure the longevity of your EMCO products, we strongly recommend that you follow these care instructions: Clean the modules with a soft textile or leather cloth and clear, lukewarm water. If there is heavy dirt, you may use a mild dishwashing detergent. **Please do not use any cleaning agents that scour, contain alcohol or are based on acetic acids. Furthermore, any agents containing lime-remover should not be used. Glass surfaces** should be cleaned only with a damp chamois. Glass edges should be wiped with a soft, dry cloth. **Please do not use conventional glass cleaners.** After cleaning, rub dry all surfaces with a soft, lint-free cloth. Please keep these installation and care instructions in a safe place and take care to heed these instructions at all times. **Damages that result from inappropriate handling or care are not covered by the guarantee.**

Afin de profiter le plus longtemps possible de vos produits de qualité EMCO, nous vous prions de bien vouloir observer les conseils d'entretien suivants: Nettoyez le module à l'aide d'un tissu ou d'une peau de chamois et d'eau pure tiède. En cas de taches tenaces vous pouvez aussi utiliser un produit nettoyant doux pour les mains. **N'employez pas de produits qui contiennent des substances abrasives, de l'alcool ou du vinaigre. Les produits appelés „détartrants“ conviennent tout aussi peu.** Veuillez essuyer les **surfaces en verre** à l'aide d'une peau de chamois humide; les bords sont à nettoyer avec un tissu sec. **N'utilisez pas les nettoyeurs pour vitres disponibles dans le commerce.** Il est important, après avoir nettoyé, de sécher toutes les taches humides à l'aide d'un linge doux et non pluchant. **Respectez s'il vous plaît scrupuleusement ces conseils de montage et d'entretien, car la garantie n'inclut pas le traitement impropre de nos produits.**

Om u zo lang mogelijk plezier aan uw hoogwaardige EMCO producten te laten beleven, schrijven wij het volgende onderhoudsvoorschrift. Reinig uw module met een vochtige, schone doek. Bij sterke vervuiling adviseren wij een zachte vloeibare zeep te gebruiken (**geen schoonmaakproducten welke schuurmiddel, alcohol of azijnzuur bevatten**). **Zogenaamde kalkverwijderaars mogen eveneens niet toegepast worden.** De **glasdeuren** alstublieft met een vochtige doek reinigen (**in geen geval agressieve glasreinigingsmiddelen gebruiken**). Na de reiniging is het belangrijk alle delen met een schone, droge doek na te drogen. **Wij verzoeken u vriendelijk dit onderhoudsvoorschrift op te volgen want beschadiging welke door slecht onderhoud is ontstaan, valt niet onder de garantie.**
